## Introduction to SalesTracker

SalesTracker CRM helps you organize your sales process, thus letting you focus on more important activities and increase productivity.

SalesTracker is ready to use Sales CRM software, to easily manage the entire lead lifecycle.

SalesTracker is a smart and intuitive tool for sales lead management which helps you manage leads in an effective and organized way.

It is a client-server application and can be accessed by multiple pc's within local computer network. You can upgrade to higher edition for more features.

For free support mail us at info@spinso.com

Typically Sales lead management involves 3 important stages, which are covered in SalesTracker.

It covers 3 important stages i.e.

Lead

2

- Follow Up
- Closure

## Introduction

The wizard screen lets you quickly enter basic details required to create masters. This screen will appear only once when you login to the system for first time.

The step by step instructions in the wizard guides you to enter master data like Employee, Product, Follow Up Type so that you can immediately start adding Leads.

Data entered through wizard can be seen in Master screen. You can also further add or modify these details later in the respective masters.

## How to enter data in Wizard

#### Please note

If you wish to skip this, you can also enter data via respective master screen

The first screen that appears in the wizard is the welcome screen, it is a start-up screen that gives brief introduction about the wizard.

Click on Next button to Continue

Please note

By default Login Name and Password would be automatically generated for employee.

In Product wizard you can enter your product catego-

This data can also be modified from the Master menu option.

## 4 Lead Management

Lead generation is the initiation of consumer interest or enquiry into products or services. Different stages in the lead management are Lead, Followup and Closure. Lets understand how to manage these stages in detail
